Re: Potential Hazardous Waste Site Tentative Disposition
Gary Job Corps Center, San Marcos - No EPA RCRA I.D.

Dear Ms. Reiter:

This letter is in response to your letter dated August 12, 1987 concerning the findings of an EPA "Potential Hazardous Waste Site Tentative Disposition" determination for the referenced site. As requested in your letter, the site will be scheduled for a RCRA inspection in the near future to determine whether violations exist. Samples will be collected during the inspection, if appropriate, to verify possible contamination identified in the subject report. If evidence is found to indicate that violations exist at the site, appropriate enforcement action will be initiated.

According to the Tentative Disposition report, electrical power transformers have been stored at the site, possibly since World War II. This suggests the possibility that TSCA violations have occurred. Therefore, it is recommended that a TSCA inspection also be conducted by EPA at the site.

If you have any questions or comments concerning this matter, please contact Susan Ferguson of the Hazardous and Solid Waste Enforcement Section at 512/463-8425.

Sincerely,

Susan Ferguson

Sam Pole, Chief
